

Next Generation A3 MFPs Brochure

Document Solutions

www.sharp.co.uk

SHARP
Be Original.

All you need to do more.

Getting things done fast shouldn't mean compromising on quality. These next generation MFPs give you the smart technology that helps you work more efficiently.

Sharp technology transforms the way organisations create, engage with and share information. Our industry-leading colour and black & white Multi-Function Printers (MFPs) all offer the same intuitive ease-of-use and smart app connectivity, as well as trusted security and enhanced productivity tools, to simplify the way you work.

These devices act as a secure information hub within small and medium sized businesses (SMBs) or medium sized workgroups in large organisations. An advanced range of smart functionality help you work more productively.

The Application Portal provides software updates and cloud connector apps that ensure your MFPs are always up-to-date. And there's plenty of flexibility for tailoring their features to suit both the way you work and your budget.

So, whatever you're doing, whether it's producing meeting materials, printing reports, scanning documents or securely sharing key information, you can do it all with outstanding speed and simplicity, even when you're on the move. And their futureproof technology means that our A3 digital MFPs will be a trusted resource for today, and tomorrow.

Sharp's range of A3 colour and black & white MFPs transform the way you work.

Advanced range - 30 to 60ppm smart MFPs that meet the needs of even the most demanding environments.

Essential range - 26 to 60ppm affordable MFPs with vital productivity features and scalable functionality.

Entry-level - 25ppm affordable, compact and cubic MFP with adaptable functionality.

Keeping you safe.

Information is the life-blood of an organisation. That's why the most stringent protection is included as standard.

Always on guard

The system at the heart of your MFP can become corrupted if an update fails or if it's the target of a malicious attack. So, these next generation MFPs include an innovative Self-Healing feature. A master copy of the MFP settings is backed up and can be used to safely recover the device if there ever is a problem. It also avoids any disruption to your business and ensures that valuable information and intellectual property is robustly protected.

Instant validation

Information that is exchanged between an MFP and another application or email system can be intercepted or compromised. These MFPs provide the same high-level protection used by many government organisations. Their SSL/TLS Certificate Validation automatically checks that all third-party servers communicating with your MFP are safe, in order to prevent any unauthorised or malicious attempts to access your information.

Proactive access control

To prevent any unauthorised use, these MFPs automatically monitor access attempts and only grant access to applications and operating firmware that are on an approved whitelist. Any other external applications are instantly blocked, logged and reported. Intrusion Detection provides the next level of protection and safeguards your device*¹ against any suspicious network access attempts.

Military-grade protection

Having been validated by the Protection Profile for Hardcopy Devices (HCD-PP v1.0) these MFPs provide the most advanced level of security demanded by business, government and military organisations. So, you can confidently handle the most sensitive data knowing that your MFP is incredibly secure.

Safer email communication

Any documents you email directly from the MFP are encrypted using the S/MIME standard. It ensures they can't be intercepted during transmission and are validated as authentic using advanced electronic signatures.

*¹ Entry-level MFP only.

Work your own way.

Being able to work flexibly, at anytime and anywhere, is key to squeezing the maximum value out of every day.

With these next generation MFPs you don't need to waste time learning complex technology. Their smart usability and intelligent connectivity mean you can print, copy, scan and share the information you need quickly and securely wherever you're working. And their software is continually updated to ensure a futureproofed performance.

One simple sign-on

No one enjoys having to remember additional usernames and passwords. Instead, Single Sign-On (SSO) is a smarter way to access public cloud services. It lets you securely print and store information in the cloud*¹ using Google Drive™, OneDrive® for Business, SharePoint® Online, Box and Dropbox with just one simple log in from the control panel. There's also an integrated Gmail connector for scanning to email and Exchange Online (MS 365 email).

Insert your USB stick and start printing.

Connections made easy

What could be easier than walking up to your MFP and printing whatever you want without even logging into your PC? With Sharp's Office Direct Print that's exactly what you get. Simply insert a USB memory stick in the MFP and immediately access and print images and Microsoft Office*² files. You can also scan and save documents straight to the USB stick.

For even greater flexibility, you can wirelessly print*³ from any WiFi enabled laptop, tablet or smartphone without the need to set up a wireless LAN. It allows you to use a much broader range of devices in a wider variety of business environments.

And if you operate separate networks in the same workplace, which might have different security or usage restrictions, everyone can still share the same Sharp MFP for a more integrated way of working. These MFPs support dual LANs*⁴ that can be connected to two different networks, one of which could be wireless.

Made for mobility

You'll love how fast and hassle-free printing from a mobile device is. You can link to the MFP in seconds by simply holding it over the NFC card reader*⁵ or by scanning the MFP's QR code*⁶. Either way, these smart MFPs configure everything for you.

You can then print from and scan to mobiles and tablets over your wireless network using Sharpdesk Mobile or print from any app that supports Google Cloud Print™ or any Android device with the Sharp Print Service Plugin.

Print where you like

Worried about leaving important or sensitive documents out in the open? Not with the Print Release feature. Simply send a job to print and then, whenever you are ready, just walk over to the most convenient MFP, log on and print off your information*7.

Simpler to manage

Printing or receiving information directly from your business systems and cloud-based applications is made much simpler with Sharp OSA® (Open System Architecture)*8.

And the Application Centre Portal makes the MFP more adaptable by providing software updates and cloud connector apps that enable agile updating.

Release print jobs from the most convenient MFP.

*1 Essential and Entry-level MFPs require optional MX-AMX2. *2 Essential and Entry-level MFPs require optional MX-PU10. *3 Essential and Entry-level MFPs require optional MX-EB18. *4 Requires commercially available dual LAN adapter. *5 For Android devices. Essential and Entry-level MFPs require commercially available NFC card reader. *6 For both iOS and Android devices. *7 Can be used from any of five network-connected MFPs. Essential Black & White MFPs require optional MX-HD16 to be the primary device. *8 Essential and Entry-level MFPs require optional MX-AMX1, MX-AMX2 and MX-AMX3.

Designed to perform.

These MFPs help you to achieve much more without working harder.

Fast printing

Speeds range from 25 up to 60 pages per minute (ppm) on a variety of paper sizes up to SRA3*¹ and weights up to 300gsm*². A flashing LED*³ notifies you if any original documents are left behind, helping you to keep documents secure.

Flashing light reminds users to remove original documents.

Convenient scanning

Rather than having to retype documents you only have as hard copy, you can use Optical Character Recognition*⁴ (OCR) to scan them in various formats, including fully searchable PDFs and editable Microsoft® Office files.

Easy to use

A large*⁵, tiltable LCD touchscreen control panel with a consistent user interface across the complete range of MFPs provides easy access to commonly used functions via Easy Mode. Or you can customise it simply by dragging and dropping menu icons.

Tilt the panel to improve viewing angle.

Efficient storage

A large onboard storage drive and a Document Filing*⁶ feature enable fast and hassle-free printing and scanning.

Consistent quality

Text and graphics on documents from any application are accurately reproduced using Adobe PostScript 3™*⁷, an image density sensor maintains a consistent image quality from first page to the last and our colour devices*⁸ use PANTONE® technology to give you reliably accurate colours. The Auto Set function also adjusts the scanning settings to optimise the resolution, page size and orientation.

Optimised direct PDF printing

Adobe Embedded Printer Engine (AEPE) enhances printing for the technology driven workplace. It helps to deliver up to 80% faster printing from mobile, cloud and USB.

Always ready

A built-in Motion Sensor*⁹ intelligently detects an approaching user and instantly wakes the MFP from sleep mode. And, as no one likes interruptions, a continuous run feature*¹⁰ lets you top up the toner without pausing copy/print jobs to maintain productivity and reduce any downtime.

Extra savings

The toner cartridge automatically ejects*¹¹ only when the toner has been fully exhausted, saving toner, minimising waste and supporting environmental goals.

Automatic toner eject feature.

Simple management

Check the status of the MFP with just a quick glance at the lights of the Status Communication Bar (or Status LEDs on the BP-30C25).

Distinct light patterns indicate specific MFP functions.

Even more flexibility

Give your documents a truly professional look with a wide variety of finishing options*¹², including punch, saddle stitching, stapleless stapling and a job separator. Additional capacity paper drawers can also be added to handle the demands of even the busiest office.

Much less energy

Sharp MFPs are designed to work extremely efficiently so that you save on running costs. Automatic, configurable power settings ensure that the MFP only switches on during set hours. Our low-melt toner reduces the energy consumption on every print or copy run. And before starting each job, the control panel prompts you to choose the most environmentally friendly settings – such as Eco Scan, which prevents unnecessary functions from powering up in the background.

*¹ Maximum paper size for Entry-level and Black & White MFPs is A3W. *² Maximum paper weight for Entry-level MFP is 256gsm. *³ Advanced MFPs only, excluding MX-4061/MX-3561/MX-3061. *⁴ Essential and Entry-level MFPs require optional MX-EB20. *⁵ 10.1" LCD touchscreen control panel on Advanced and Essential MFPs. 7" LCD touchscreen control panel on Entry-level MFP. *⁶ Essential Black & White MFPs require optional MX-HD16. *⁷ Essential and Entry-level MFPs require optional MX-PK13. *⁸ Excluding Entry-level MFP. *⁹ Advanced MFPs only. *¹⁰ MX-6071/MX-5071/MX-6051/MX-5051 only. *¹¹ Colour MFPs only. *¹² Not available for Entry-level MFP.

Configurations

Hardware options

Base unit (Advanced & Essential MFPs)

1. MX-DE25 N Stand with 550-Sheet Paper Drawer

550 sheets*¹, SRA3*²/A3W*³ - A5R (60 - 300 g/m²)

2. MX-DE26 N Stand with 2 x 550-Sheet Paper Drawer

550 sheets*¹ each for lower and upper trays, SRA3*²/A3W*³ - A5R (60 - 300 g/m²)

3. MX-DE27 N Stand with 3 x 550-Sheet Paper Drawer

550 sheets*¹ each for lower and upper trays, SRA3*²/A3W*³ - A5R (60 - 300 g/m²)

4. MX-DE28 N Stand with 550 + 2,100-Sheet Paper Drawer

Upper tray: SRA3*²/A3W*³ - A5R, 550 sheets*¹ (60 - 300 g/m²).

Lower tray (Left): A4, 1,200 sheets*¹ (60 - 105 g/m²)

Lower tray (Right): A4 - B5, 900 sheets*¹ (60 - 105 g/m²)

5. MX-DE29 N 550-Sheet Paper Drawer

550 sheets*¹, SRA3*²/A3W*³ - A5R (60 - 300 g/m²)

6. MX-LC17 N Large Capacity Tray (A4)

3,000 sheets*¹, A4 - B5 (60 - 220 g/m²)

7. MX-UT10 Utility Table

Finishing (Advanced & Essential MFPs)

8. MX-LT10 Long Paper Feeding Tray

Recommended for banner printing

9. MX-TR19 N Exit Tray Unit

Optional Punch Module for MX-FN27 N:

MX-PN14C - 2/4 Hole Punch Module

MX-PN14D - 4 Hole Wide Punch Module

10. MX-FN27 N Inner Finisher

A3 - B5 (offset/staple), SRA3*²/A3W*³ - A5R (non offset)

Offset tray (upper): max. 500-sheet paper capacity*¹

Stapling capacity: max. 50-sheet multi-position staple*¹

Staple position: 3 locations (front, rear or 2 point stitching)

Manual stapling: 1-point at rear (Flat), 45 sheets (64 g/m²), 40 sheets (80 g/m²)

Stapleless capacity: max.5-sheet (64 g/m²), 4 sheet (65 - 81.4 g/m²),

3 sheet (81.5 - 105 g/m²)

Stapleless position: 1-point at rear (Slant), A3 - B5

11. MX-RB25 N Paper Pass Unit

Required when using MX-FN28, MX-FN29, MX-FN30 & MX-FN31

12. MX-TR20 Job Separator Tray

Requires MX-TU16 Exit Tray Cabinet

13. MX-TU16 Exit Tray Cabinet

Optional Punch Module for MX-FN28 & MX-FN29:

MX-PN15C - 2/4 Hole Punch Module

MX-PN15D - 4 Hole Wide Punch Module

14. MX-FN28 1k Finisher

A3W - A5R (offset/staple), SRA3*²/A3W*³ - A5R (non offset)

Offset tray (upper): max.1,000-sheet paper capacity*¹

Stapling capacity: max. 50-sheet multi-position staple*¹

Staple position: 1-point at front (Flat), 1-point at back (Flat), 2 point stitching

15. MX-FN29 1k Saddle Stitch Finisher

A3W - A5R (offset/staple), SRA3*²/A3W*³ - A5R (non offset)

Offset tray (upper): max.1,000-sheet paper capacity*¹

Stapling capacity: max. 50-sheet multi-position staple*¹

Staple position: 1-point at front (Flat), 1-point at back (Flat), 2 point stitching

Saddle stitch tray (lower): 7 sets (11-15 sheets), 10 sets (6-10 sheets),

20 sets (1-5 sheets). 15 sheets max per set

Optional Punch Module for MX-FN30 & MX-FN31:

MX-PN16C - 2/4 Hole Punch Module

MX-PN16D - 4 Hole Wide Punch Module

16. MX-FN30 3k Finisher

A3 - B5 (offset/staple), SRA3*²/A3W*³ - A5R (non offset)

Offset tray (upper): max.3,000-sheet paper capacity*¹

Stapling capacity: max. 65-sheet multi-position staple*¹

Staple position: 1-point at front (Slant), 1-point at back (Slant), 2 point stitching

Manual stapling: 1-point at rear (Flat), 45 sheets (64 g/m²), 40 sheets (80 g/m²)

Stapleless capacity: max.5-sheet (64 g/m²), 4 sheet (65 - 81.4 g/m²),

3 sheet (81.5 - 105 g/m²)

Stapleless position: 1-point at rear (Slant), A3 - B5

17. MX-FN31 3k Saddle Stitch Finisher

A3 - B5 (offset/staple), SRA3*²/A3W*³ - A5R (non offset)

Offset tray (upper): max.3,000-sheet paper capacity*¹

Stapling capacity: max. 65-sheet multi-position staple*¹

Staple position: 1-point at front (Slant), 1-point at back (Slant), 2 point stitching

Manual stapling: 1-point at rear (Flat), 45 sheets (64 g/m²), 40 sheets (80 g/m²)

Stapleless capacity: max.5-sheet (64 g/m²), 4 sheet (65 - 81.4 g/m²),

3 sheet (81.5 - 105 g/m²)

Stapleless position: 1-point at rear (Slant), A3 - B5

Saddle stitch tray (lower): 10 sets (11-15 sheets), 15 sets (6-10 sheets),

25 sets (1-5 sheets). 20 sheets max per set

Base unit (Entry-level MFP)

18. BP-CS10 500-Sheet Paper Drawer

500 sheets*¹, A3W - A5R (60 - 220 g/m²)

19. BP-DE10 Stand with 2 x 500-Sheet Paper Drawers

500 sheets*¹ each for lower and upper trays, A3W - A5R (60 - 220 g/m²)

20. BP-DS10 High Stand

21. BP-DS11 Low Stand

*¹ Number of sheets based on 80 g/m². *² Advanced & Essential Colour MFPs only. *³ Advanced & Essential Black & White MFPs only.

Welcome to Sharp

Sharp Information Systems Europe (SISE), a division of Sharp Electronics Europe, offers a comprehensive portfolio of award-winning document management and display solutions to help organisations transform the way they engage with information. Sharp's industry-leading MFPs and high-volume systems sit at the heart of integrated applications for digital transformation.

Sharp's proprietary Open Systems Architecture (OSA) technology transforms MFPs into powerful information portals, seamlessly integrating to the cloud and third-party business applications. By facilitating the transition to new equipment, methods and processes, Sharp Managed Services help improve how businesses interact with information through enhanced digital workflows and more collaborative working.

Sharp also offer a range of display solutions that include video walls for immersive entertainment, digital signage and innovative interactive touchscreens for engaging presentations.

Our mission is to develop new products that support individual expression; creating life enhancing experiences that let you be original.
